

# 1965709 - Transport InfoPackage overwrites executable version, warning RSAR485 in transport log

Version	8	Type	SAP Note
Language	Anglais	Master Language	Allemand
Priority	Hot News	Category	Program error
Release Status	Released for Customer	Released On	22.07.2015
Component	BW-WHM-MTD-CTS (Transport connection)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/1965709>

## Symptom

Caution: You should implement this SAP Note regardless of which version of R3trans you use. This will ensure that no malfunctions will occur when you install R3trans as described in SAP Note 1965871.

The transport of InfoPackages (transport object R3TR ISIP) no longer works in the R3trans version of October 24, 2013, from kernel Release 7.30. The system does not issue any error messages, however, but instead issues a warning RSAR 485 "Repeated import-subsequent processing for object &1 - object skipped" to the transport log.

As a consequence of this failed import, the executable version of the InfoPackage is overwritten. When you try to generate a new load request, the system terminates the process, for example, with error message RSM 151 "DataSource '&' not active in source system '&' - Termination".

In addition, the following errors can occur:

- The transport of process chains fails with one of the following messages:
  - RSPC051 Error in remote call of destination &1
  - RSMPC207 DS &1 from the QS &2 does not exist in A version; cannot load

## Other Terms

Process chain, request, InfoPackage, rstlogoprop, RSTLOGOPROP, RS\_ISIP\_AFTER\_IMPORT, RSPC 051, RSMPC 207

## Reason and Prerequisites

There is a program error.

## Solution

- SAP NetWeaver BW 7.30

Import Support Package 12 for SAP NetWeaver BW 7.30 (SAPKW73012) into your BW system. The Support Package is available when SAP Note 1950117 "SAP BW News NW 7.30 BW ABAP SP12", which describes this Support Package in more detail, is released for customers.

- SAP NetWeaver BW 7.31 (SAP NW BW 7.3 Enhancement Package 1)

- SAP NetWeaver BW 7.40

## Manual Activities

```
| |
| |
| SAP_BW Business Inform...|
| 731 SAPKW73102 - SAPKW73111 |
| 730 SAPKW73004 - SAPKW73011 |
| 740 SAPKW74002 - SAPKW74006 |
```

from SAP Note 1965871, you will have to repair these InfoPackages with a new transport.

Since the old transport contains incorrect transport data, we recommend deleting it from all import buffers to be absolutely certain.

## Software Components

Software Component	Release
SAP_BW	730 - 730
SAP_BW	731 - 731
SAP_BW	740 - 740

## Other Components

Component	Description
BW-WHM-DST-PC	Process Chains
BW-WHM-DST-SDL	Scheduler
BC-CTS-TLS	Transport Tools

## Support Package

Software Component	Release	Support Package
SAP_BW	730	SAPKW73012
SAP_BW	731	SAPKW73112
SAP_BW	740	SAPKW74007
